

Spray Bitumen - Quotation Questionnaire

This checklist is designed to assess whether site conditions are suitable for thick bitumen external spray waterproofing. It should be completed and returned to us **along with relevant drawings** in order for us to provide a quotation. Please complete the form and return via fax – 0871 433 5174, email info@beautiful-basements.co.uk or via post to Beautiful Basements, Unit 3D Westbridge Industrial Estate, Duns Lane, Leicester LE3 5LX

Quote No:-

<u>SECTION 1 – PROPOSAL DETAILS</u>		Date
Site Address		
Description of development to be tanked		
Your Name	Email	
Tel	Mobile	
Company Name	Your Position	
Company Address		
Are you an employee of the above company? YES / NO Company website		
Are you the	Client / Main Contractor / Sub-contractor / Agent / Consultant	

<u>SECTION 2 – WORKS DETAILS</u>	
In addition to cold applied thick bitumen spray tanking; please indicate which <i>additional</i> ESSENTIAL works you require us to quote for - please see Advice Sheet 1 and Advice Sheet 2	
Toe preparation (Jet Washing/Scabbling/Bush Hammering etc.)	<input type="checkbox"/>
Breaking <u>all</u> external corners	<input type="checkbox"/>
Laying fillet on <u>all</u> internal corners	<input type="checkbox"/>
Laying fillet at wall/floor junction	<input type="checkbox"/>
Waterproofing service entries	<input type="checkbox"/>
Construction joint filling	<input type="checkbox"/>
Protection from overspray	<input type="checkbox"/>
Waterproofing of exposed substructure construction heads	<input type="checkbox"/>
Laying of land drains and chamber risers/pumps	<input type="checkbox"/>
Supply and installation of internal & external sumps for dewatering	<input type="checkbox"/>
Supply and installation of external protection board/slip coats	<input type="checkbox"/>
or	
Supply and installation of protective external insulation/slip coats	<input type="checkbox"/>
<u>Please note that all of the above MUST be considered in the construction approach</u>	
<u>Prior to waterproofing</u>	

SECTION 3 - SITE DETAILS

	YES	NO
Will the site conform to relevant Health and Safety legislation?	<input type="checkbox"/>	<input type="checkbox"/>
Will the excavation be propped or laid to a suitable repose for safe working?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be a minimum of 1000mm clean, dry and level working space around all areas to be tanked?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be free & unrestricted parking for a Van and trailer for the duration of works?	<input type="checkbox"/>	<input type="checkbox"/>
Will the areas surrounding (structures, cars etc.) protected from overspray?	<input type="checkbox"/>	<input type="checkbox"/>
Will all areas to be tanked be within 40m of parking?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be 12.5m ² of working space adjacent to parking?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be a permanent client representative on site during the installation?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be a facility to have materials delivered and unloaded by others <u>in advance</u> of our arrival and safely stored on site in secure, dry storage at the client's risk?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be someone on site on completion of works to sign off the Installation?	<input type="checkbox"/>	<input type="checkbox"/>
Will the site will be open from 7.30am on the day of installation?	<input type="checkbox"/>	<input type="checkbox"/>
Will suitable access plant be available for excavations more than 1.5m deep?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be a pressurised fresh water supply within 20m of parking?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be a 110/240v power supply within 20m of parking?	<input type="checkbox"/>	<input type="checkbox"/>
Will facilities be available for our waste disposal?	<input type="checkbox"/>	<input type="checkbox"/>
Will W/C and wash facilities be available on site?	<input type="checkbox"/>	<input type="checkbox"/>
Will there be an area set aside to clean our tools and equipment where bitumen can be hosed off without damaging anything?	<input type="checkbox"/>	<input type="checkbox"/>

SECTION 3 – HEALTH AND SAFETY

	YES	NO
Will the excavation be subject to any specific H&S requirements or warnings?	<input type="checkbox"/>	<input type="checkbox"/>
Will our operatives be required to undertake any site specific training or induction?	<input type="checkbox"/>	<input type="checkbox"/>
Will our operatives be required to show any documents, cards or identification to access or work on the site?	<input type="checkbox"/>	<input type="checkbox"/>
Will our operatives be required to wear any specific PPE?	<input type="checkbox"/>	<input type="checkbox"/>
If "YES" to any of the above – please advise details in section 5		

SECTION 5 – OTHER INFORMATION

Is there anything else we should know about the site, site conditions or access arrangements?

SECTION 6 – DECLARATION

I confirm that:

I/We are responsible for the excavation, its suitability, safety and condition for spray tanking

I/We are responsible for ensuring the site is clean, tidy and suitable for Beautiful Basements to carry out its work

I/We confirm the answers given are, to the best of my/our knowledge accurate.

I/We understand and accept if any of the answers to the above questions are inaccurate at the time of tanking application, additional charges may apply

If any of the above questions have been answered “NO”, additional charges may apply

I/we confirm the concrete will be suitable for spray application. NOTE - Concrete that has been inadequately designed or placed can be friable or unsuitable for bitumen application. Our quotation and installation terms assume the concrete is of suitable quality, whether or not this is apparent from a visual inspection. For advice on common concrete problems please see [Advice Sheet 2](#).

I/We have read and understand Beautiful Basements [terms and conditions](#) and [advice sheet 1](#) and [advice sheet 2](#).

The information I have supplied is an accurate reflection of the project and that if any of the information is inaccurate additional charges may be levied as per pricing guidelines as at <http://nationaltanking.co.uk/prices.php>

I/We understand all installations are weather dependant and cannot be undertaken when raining, when rain is forecast within 24 hours or when the temperature is below 5°C for a period of 48 hours.
